## What's New in Your Parks this Summer?

Last fall we invested in Vancouver's parks and trails system through strategic repairs and new amenities. Work is now finishing up at Diamond, Fir Garden, and Oakbrook neighborhood parks. All three will see new pathways and updated irrigation systems, benches and picnic tables. Heritage Neighborhood Park will sport a brand new playground and a relocated basketball court. The City of Vancouver is committed to ensuring all Vancouver

residents are within walking distance of a safe and well maintained park.

Work on the upcoming Waterfront Park continues near downtown Vancouver. By the end of the summer the new over-the-water pier should be easily visible!
