

Ellen Davis Trail

BURNT BRIDGE CREEK GREENWAY

2 miles

EASY **MODERATE** DIFFICULT

TRAILHEAD AT N END OF LEVERICH PARK, NE LEVERICH PARK WAY & NE 45TH STREET, VANCOUVER

This scenic on- and off-street trail connects the Burnt Bridge Creek Greenway at Leverich Park with St. James Road. The trail follows Burnt Bridge Creek through the historic Bonneville Power Administration gardens (circa 1920s), passes the manicured grounds of the JD Ross Substation Complex, and meanders through a forested area in the Minnehaha Neighborhood. It is a multi-use trail open to hikers and cyclists. The scenery is a mix of woods, valley and creekside meadows, and residential areas. This is mostly a flat trail with a few steep switchbacks.
