

FIREWORKS NOT LEGAL INSIDE THE CITY LIMITS

EXAMPLES BELOW ARE NOT A COMPLETE LIST

Cylindrical Fountain

Upon ignition, a shower of colored sparks, and sometimes a whistling effect, is produced.

Helicopters, Aerial Spinners

A propeller or blade is attached, which, upon ignition, lifts the rapidly spinning device into the air. A visible or audible effect is produced at the height of flight.

Cone Fountain

Upon ignition, a shower of colored sparks, and sometimes a whistling effect, is produced.

Smoke Devices, Snakes

Tube or sphere containing pyrotechnic composition that, upon ignition, produces a white or colored smoke as a primary effect.

Roman Candles

Heavy paper or cardboard tube containing pyrotechnic composition. Upon ignition, up to ten "stars" are individually expelled at several-second intervals.

Parachutes

Upon ignition, one or more parachutes are propelled into the air with stars, smoke, and other effects being discharged as the parachute floats downward.

Wheels

Pyrotechnic device attached to a post or tree by means of a nail or string. A wheel may contain up to six "driver" units; upon ignition, the wheel revolves, producing a shower of color and sparks and, sometimes, a whistling effect.

Mine/Shells/Cakes

Mine – An aerial device that shoots stars into the sky in an upward spray pattern.
Shell – A shell is an aerial item that is fired into the sky.
Cake – Dense-packed collection of mine/shell tubes that are fused together.

Ground Spinners

A small device similar to a wheel in design and effect. When placed on the ground and ignited, a shower of sparks and color is produced by the rapidly spinning device.

Reloadable Mortars

A shell consisting of a container, a lift charge, a time fuse, a burst charge, and stars/effects. The lift charge propels the shell out of the tube igniting the burst charge at the right altitude, igniting the effects.

Dipped Stick, Sparklers

Stick or wire coated with pyrotechnic composition that produces a shower of sparks upon ignition. Total pyrotechnic composition not to exceed 100 grams per item.

SOME Novelties

"Trick and Novelty Devices" that are sold year round in party stores are legal year round to have and use.

FIREWORK AND EXPLOSIVE DEVICES THAT ARE ALWAYS ILLEGAL THROUGHOUT WASHINGTON STATE

Statewide Illegal Fireworks: These items are legal to purchase, possess, and discharge only at an Indian Reservation. Possession and/or use off the reservation is illegal.

Firecrackers

Generally 1/4" x 1 1/2" or less that come in packs to large bricks. A firecracker makes a single "pop" sound. Many firecrackers strung together will make repetitive "popping" sounds.

Sky Rockets and Missiles

Similar to the Bottle Rocket, a Sky Rocket is attached to a stick or has fins and may have a plastic cap. A missile will have fins rather than a stick. Once lit, it ascends rapidly, high into the air where it explodes.

Bottle Rockets

A firecracker type (tube) attached to a 12" long wooden stick. The stick is placed in a bottle and once lit, it rises into the air, travelling laterally before exploding.

Illegal Explosive Devices: The possession, manufacturing, or using of illegal Explosive Devices is a criminal offense.

M-80's, M-100's, etc.

Illegal since the 70's, an M-80 can contain flash powder, black powder, or a composition of materials that are sensitive to shock and can injure or kill people. Can do serious permanent damage to fingers, hands, and eyes.

Improvised Explosive Device (IED)

A pipe bomb is an improvised explosive device, consisting of a tightly sealed section of pipe that is filled with an explosive material. The pipe provides containment, meaning that a low explosive can be used to produce a relatively large explosion.

A tennis ball bomb is an improvised explosive device consisting of a tennis ball filled with combustibles or pyrotechnic material with a fuse. Piccolo Pete bombs use plastic bottles.

Altered Firework

Sparklers are bound together in electrical or duct tape to contain the ignition of the sparklers, providing for a loud "whoomp" sound with a flash of light.
