

What Your Car Looks Like to a Thief....

The Vancouver Police Department has an important message:

REMOVE VALUABLES FROM VEHICLES!

- For an experienced thief it only takes a few seconds to shatter a car window and steal your valuables. It's even easier if the car is unlocked!
- Thieves often use the buddy system. One is the lookout and the other breaks into the car and steals.

Thieves watch for people to "hide" a purse, laptop, briefcase or electronic device under a seat or in the trunk. They wait until the person is away from the car and then smash and grab, pop the trunk if needed to get the good stuff, and they and your valuables are gone.

Protect your property, your identity and yourself.
Don't store valuables in your vehicle!
