I. Executive Summary

This report contains data through June 30, 2024. A supplement feature of this Quarterly Report is the addition of the Performance Reports, representing the status of various initiatives and capital projects throughout the City.

National economic indicators suggest that economic activity has been expanding at a moderate pace. Real gross domestic product (GDP) increased at an annual rate of 2.8% in the second quarter of 2024, according to the "advance" estimate released by the Bureau of Economic Analysis. Unemployment rate has remained low. Inflation remains elevated. The increase in the second quarter primarily reflected increases in consumer spending, inventory investment, and business investment. Imports, which are a subtraction in the calculation of GDP, increased.

City of Vancouver General Fund revenues in the second quarter of 2024 totaled \$136.2 million, or 49% of the forecast for the year. Overall tax revenues were 10.2% higher than those through the second quarter of 2023, driven primarily by property tax and utility tax. Property tax collections through the second quarter were 2.0% higher than those in 2023. Sales taxes were 3.2% higher respectively; however, sales tax came in under the forecasted amount by approximately \$1.6 million. As expected, business license revenue is coming in higher in 2024 due to the business license fee surcharge that went into effect April 1, 2023.

General Fund expenditures at the end of June 2024 were \$111.5 million, or 39% of the budget for the year. The General Fund operating cash balance was \$97.9 million at the end of June 2024. Following is detailed information on the main revenue sources of the General Fund.

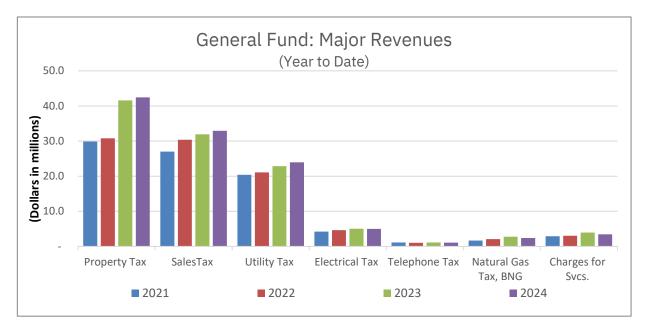

Chart No. 1 – General Fund Major Revenues through June 30, 2024.

II. Economic Report

National economic indicators suggest that economic activity has been expanding at a moderate pace. Real gross domestic product (GDP) increased at an annual rate of 2.8% in the second quarter of 2024, according to the "advance" estimate released by the Bureau of Economic Analysis. The increase in the second quarter primarily reflected increases in consumer spending, inventory investment, and business investment. Imports, which are a subtraction in the calculation of GDP, increased.¹

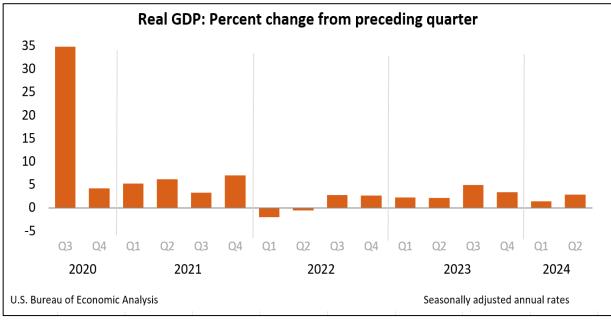

Chart No. 2 – Real GDP: % Change from Preceding Quarter (Source: <u>Gross Domestic Product, Second Quarter 2024 (Advance Estimate) | U.S. Bureau of Economic Analysis (BEA)</u>

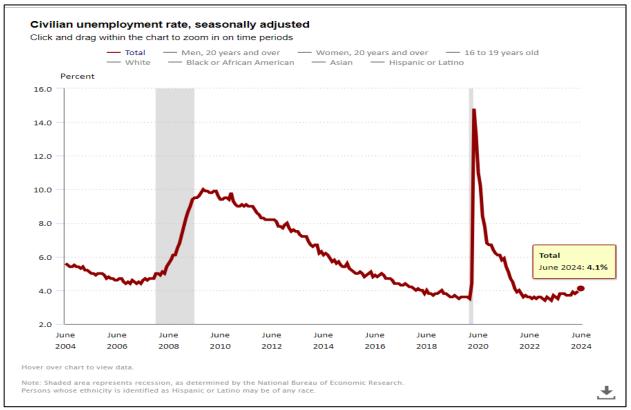

The Federal Open Market Committee's statement of the second quarter of 2024 revealed that economic activity has been expanding at a moderate pace. Job gains have been robust in recent months, and the unemployment rate has remained low. Inflation remains elevated. The U.S. banking system is sound and resilient. Tighter credit conditions for households and businesses are likely to weigh on economic activity, hiring, and inflation. The extent of these effects remains uncertain, and the Committee remains highly attentive to inflation risks.²

Total nonfarm payroll employment increased by 206,000 in June, and the unemployment rate changed little at 4.1% according to the U.S. Bureau of Labor Statistics. Job gains occurred in government, health care, social assistance, and construction. Both the unemployment rate, at 4.1%, and the number of unemployed people, at 6.8 million, changed little in June. These measures are higher than a year earlier, when the jobless rate was 3.6% and the number of unemployed people was 6.0 million.

¹ Gross Domestic Product, Fourth Quarter 2023 (Advance Estimate) | U.S. Bureau of Economic Analysis (BEA)

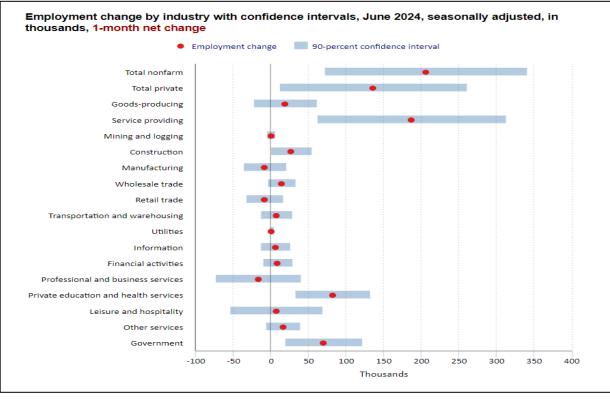

² <u>Federal Reserve Board - Federal Reserve issues FOMC statement</u>, June 2024.

The number of long-term unemployed (those jobless for 27 weeks or more) rose by 166,000 to 1.5 million in June. This measure is up from 1.1 million a year earlier. The long-term unemployed accounted for 22.2% of all unemployed people in June.³

³ <u>Civilian unemployment rate (bls.gov)</u> Second Quarter FY 2024 Financial Report

Below is additional information on changes in employment by industry over the last month.

One of the major measures of consumer assurance is the Conference Board's Compiled Index of Consumer Confidence. Three thousand households across the country are surveyed each month to determine consumer perceptions of current business and employment conditions, as well as their expectations for the upcoming six months. The level of consumer confidence is associated with anticipation about future developments in the economy and is used as an indicator of the likely general direction of consumer spending in the coming months.

The Conference Board **Consumer Confidence Index**® increased in June to 109.7, up from 102.5 in May. The **Present Situation Index**—based on consumers' assessment of current business and labor market conditions—rose to 155.3 from May's index of 148.9. The **Expectations Index**—based on consumers' short-term outlook for income, business, and labor market conditions—rose in June to 79.3 from 71.5 in May. However, June's reading was just a shade below 80, but up sharply from last month's print. (An Expectations index below 80 often signals a forthcoming recession.)

"Consumer confidence improved in June to its highest level since January 2022, reflecting improved current conditions and a pop in expectations," said Dana Peterson, Chief Economist at The Conference Board. "Greater confidence was most evident among consumers under age 35, and consumers earning incomes over \$35,000. Nonetheless, the expectations gauge continued to signal consumers anticipating a recession at some point over the next 6 to 12 months.

Although the Expectations Index remained a hair below the threshold signaling recession ahead, a new measure found considerably fewer consumers now expect a recession in the next 12 months compared to May. Meanwhile, on a six-month moving average basis, plans to purchase autos and homes have slowed, after picking up earlier in 2023. This may reflect rising costs to finance big-ticket items as the Fed continues to raise interest rates. Meanwhile, vacation plans within the next six months continued to flag, led largely by declines in plans to travel domestically. This is an important indicator of desires to spend on services ahead, which may be a signal that post-pandemic 'revenge spending' on travel may have peaked and is likely to slow over the rest of this year."⁴

⁴ <u>US Consumer Confidence (conference-board.org)</u>, June 30, 2024

Second Quarter FY 2024 Financial Report

A second measure of consumer attitudes from the University of Michigan, known as *The Sentiment Index*. The <u>University of Michigan Consumer Sentiment Index</u> (MCSI) reported, "Consumer sentiment held steady in June; this month's reading was a scant and statistically insignificant 0.9 index points below May and well within the margin of error. While consumers exhibited confidence that inflation will continue to moderate, many expressed concerns about the effect of high prices and weakening incomes on their personal finances. These trends offset the improvements in the short- and long-run outlook for business conditions stemming in part from expectations for softening interest rates. Still, sentiment is currently about 36% above the trough seen in June 2022.

Year-ahead inflation expectations fell from 3.3% last month to 3.0% this month; in comparison, these expectations ranged between 2.3 to 3.0% in the two years prior to the pandemic. Long-run inflation expectations came in at 3.0% for the third consecutive month and have remained remarkably stable over the last three years. These expectations remain somewhat elevated relative to the 2.2-2.6% range seen in the two years pre-pandemic.

Since mid-2022, realized inflation has eased considerably. Consumers' inflation expectations have followed a similar path, falling from 5.3% two years ago to the 3.0% seen today. However, the share of consumers mentioning the negative impact of high prices on their personal finances has remained stubbornly high; the 46% reading this month barely budged from the 49% seen in mid-2022. The marked divergence in consumers' personal experiences with high prices and their expectations for macroeconomic inflation likely reflects a latent understanding that disinflation does not necessarily yield lower price levels."⁵

⁵ <u>Surveys of Consumers (umich.edu), June 2024</u> Second Quarter FY 2024 Financial Report

The US Conference Board tracks ten different economic indicators to assess the health of the economy and to evaluate the direction of economic development. The cumulative product of these indicators is called the US Leading Economic Index (LEI), which provides an early indication of significant turning points in the business cycle and where the economy is heading in the near term.

The Conference Board Leading Economic Index® (LEI) for the U.S. decreased by 0.2% in June 2024 to 101.1 (2016=100), following a decline of 0.4% in May. Over the first half of 2024, the LEI fell by 1.9%—a smaller decrease than the 2.9 % contraction over the second half of 2023.

"The US LEI continued to trend down in June, but the contraction was smaller than in the past three months," said Justyna Zabinska-La Monica, Senior Manager, Business Cycle Indicators, at The Conference Board. "The decline continued to be fueled by gloomy consumer expectations, weak new orders, negative interest rate spread, and an increased number of initial claims for unemployment. However, due to the smaller month-on-month rate of decline, the LEI's long-term growth has become less negative, pointing to a slow recovery. Taken together, June's data suggest that economic activity is likely to continue to lose momentum in the months ahead. We currently forecast that cooling consumer spending will push US GDP growth down to around 1% (annualized) in Q3 of this year."⁶

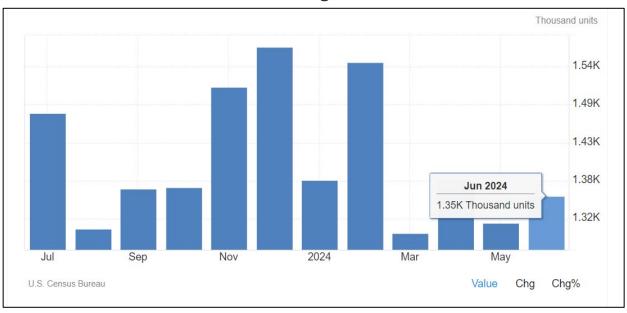

The graphic representation of the LEI for the U.S. since 2000 is shown below.

Source: US Leading Indicators (conference-board.org)

⁶ <u>US Leading Indicators (conference-board.org)</u> Second Quarter FY 2024 Financial Report

In July 2024, housing starts in the United States fell by 6.8% from the previous month to an annualized rate of 1.238 million, the sharpest decline since March to the lowest level since 2020, and contrasting with the downwardly revised 1.1% increase in the previous month. The decline was caused by a 14.1% slump in starts of buildings with one unit (to 850,000), offsetting the 11.7% increase in units with 5 or more units (to 363,000). Among different areas of the country, housing starts fell sharply in the South (-13.6% to 640,000) and the West (-12% to 263,000), while easing in the Midwest (-1.7% to 171,000). On the other hand, a steeper decline was prevented by an increase in the Northeast (42.6% to 164,000).

Housing starts dropped in the West in June 2024 as well; however, housing starts in the US rose by 3% from May to an annualized rate of 1,314,000, rebounding from the revised 4.6% decline in the previous month and firmly above market expectations of 1,300,000 starts. The growth was carried by a 22% surge in starts of buildings with 5 units or more, totaling an annual rate of 360,000. This offset a 2.2% drop in single-unit starts, totaling a rate of 980,000. Among different parts of the country, starts soared in the Northeast (34.4% to 121,000) and the Midwest (26.8% to 194,000), while dropping in the West (-6.1% to 306,000) and the South (-1.7% to 732,000).⁷

U.S. Housing Starts

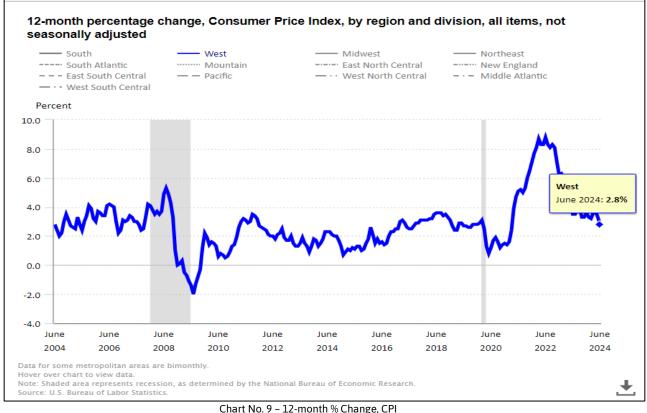

Chart No. 8 – U.S. Housing Starts Source: <u>United States Housing Starts (tradingeconomics.com)</u>

In June 2024, the Consumer Price Index for All Urban Consumers (CPI-U) declined 0.1% on a seasonally adjusted basis, after being unchanged in May, according to the U.S. Bureau of Labor Statistics. Over the last 12 months, the all items index increased 3.0% before seasonal adjustment.

⁷ <u>United States Housing Starts (tradingeconomics.com)</u> Second Quarter FY 2024 Financial Report

"The index for gasoline fell 3.8% in June, after declining 3.6% in May, more than offsetting an increase in shelter. The energy index fell 2.0% over the month, as it did the preceding month. The index for food increased 0.2% in June. The food away from home index rose 0.4% over the month, while the food at home index increased 0.1%. The index for all items less food and energy rose 0.1% in June, after rising 0.2% the preceding month. Indexes which increased in June include shelter, motor vehicle insurance, household furnishings and operations, medical care, and personal care. The indexes for airline fares, used cars and trucks, and communication were among those that decreased over the month.

The all items index rose 3.0% for the 12 months ending June, a smaller increase than the 3.3% increase for the 12 months ending May. The all items less food and energy index rose 3.3% over the last 12 months and was the smallest 12-month increase in that index since April 2021. The energy index increased 1.0% for the 12 months ending June. The food index increased 2.2% over the last year."⁸

State Economy

The June 2024 Washington State Economic and Revenue Update from the Washington Economic and Revenue Forecast Council had the following highlights:

- Washington job growth was stronger than forecasted in June.
- Washington's unemployment rate has been trending upward. The unemployment rate remained at 4.9% in June from the month before, although it is up from a recent trough of 3.8% in June 2023
- Washington housing construction slowed in the second quarter of 2024. The number of housing units authorized by building permits declined to 33,300 (SAAR) in the second quarter from 38,000 in the first quarter. June in particular was weak, coming in at 30,500 (SAAR) units, the lowest since August 2016. Single family permits in the second quarter declined to 17,500 (SAAR) from 20,600 (SAAR) in the first quarter. Multi-family permits declined to 15,700 (SAAR) in the second quarter from 17,400 (SAAR) the prior quarter.
- Seattle-area home price growth picked up in May. The S&P CoreLogic Case-Shiller Seattle home price index increased 0.5% over the month in May, up from 0.1% growth in April. In comparison, the composite-20 index increased 0.3% monthly growth in May, down from 0.4% in April. Seattle home prices in April were up 7.0% over the year while the composite-20 index was up 6.7% over the year.
- Seattle-area inflation continues to outpace the national average.
- New vehicle sales in Washington are declining.

Local Economy

Prices in the Seattle area, as measured by the Consumer Price Index for All Urban Consumers (CPI-U), advanced 0.4% for the two months ending in June 2024, the U.S. Bureau of Labor Statistics reported. Regional Commissioner Chris Rosenlund noted that the June increase was influenced by higher prices for shelter.

Over the last 12 months, the CPI-U increased 3.8%. Food prices increased 1.1%. Energy prices fell 1.7%, largely the result of a decrease in the price of gasoline. The index for all items less food and energy rose 4.4% over the year.⁹

⁹ Consumer Price Index, Seattle area — March 2024: Western Information Office: U.S. Bureau of Labor Statistics (bls.gov)

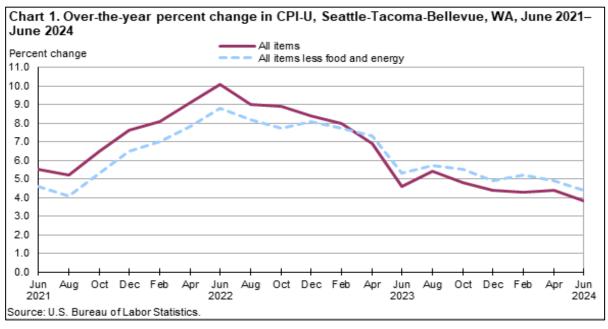

Chart. No 10 – Over-the-Year % Change in CPI-U, Seattle-Tacoma-Bellevue WA Source: <u>Consumer Price Index, Seattle area — April 2024</u>: Western Information Office : U.S. Bureau of Labor Statistics (bls.gov)

According to the Bureau of Labor Statistics, the unemployment rate for the Portland-Vancouver-Hillsboro area was 3.9% in June 2024, lower than the Clark County rate of 4.5% and lower than 4.9% for the state of Washington. Below is a historical chart of the comparative monthly unemployment rate readings between the state of Washington, Clark County and the Portland-Metro area going back to 2021.

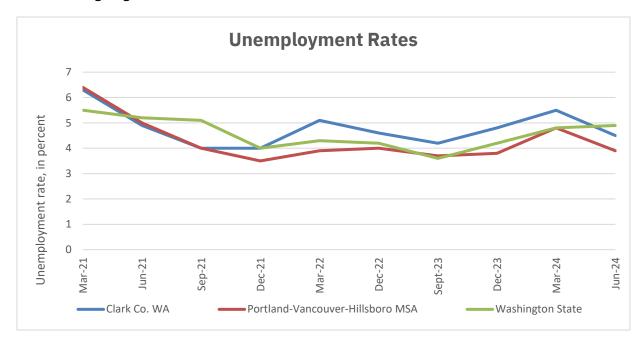

Chart No. 11 – Unemployment Rate (includes Clark County WA, Portland-Vancouver-Hillsboro MSA, WA State) Source: <u>Portland-Vancouver-Hillsboro, OR-WA Economy at a Glance (bls.gov)</u>

The S&P CoreLogic Case-Shiller U.S. National Home Price NSA Index, covering all nine U.S. census divisions, reported a 5.9% annual gain for May, down from a 6.4% annual gain in the previous month. The 10-City Composite saw an annual increase of 7.7%, down from an 8.1% annual increase in the previous month. The 20-City Composite posted a year-over-year increase of 6.8%, dropping from a 7.3% increase in the previous month. New York reported the highest annual gain among the 20 cities with a 9.4% increase in May, followed by San Diego and Las Vegas with increases of 9.1% and 8.6%, respectively. Portland once again held the lowest rank for the smallest year-over-year growth, notching a 1.0% annual increase in May.¹⁰"

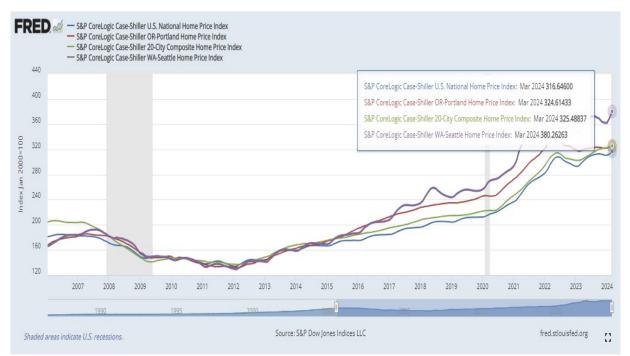

Chart No. 12 S& P Case-Schiller Home Price Index (includes National, WA-Seattle, 20-city composite, OR-Portland Source: <u>S&P/Case-Shiller U.S. National Home Price Index (CSUSHPINSA) | FRED | St. Louis Fed (stlouisfed.org)</u>

The median home value in Vancouver, WA was \$508.1 thousand (up 2.8% over the past year), which is slightly lower than Clark County at \$545.7 thousand (up 2.7% over the past year).¹¹

National Association of Realtors® (NAR) released a summary of existing-home sales data showing that "housing market activity declined 5.4% from May 2024 to June. June existing-home sales reached a 3.89 million seasonally adjusted annual rate. June sales of existing homes declined 5.4% from June 2023. The national median existing-home price for all housing types reached \$426,900 in June, up 4.1% from a year ago. This would be a new record high since the data series began. This also marks 12 straight months of price gains.

¹⁰ S&P CoreLogic Case-Shiller Index Hits New All-Time High in March 2024 - Index Announcements | S&P Dow Jones Indices (spglobal.com)

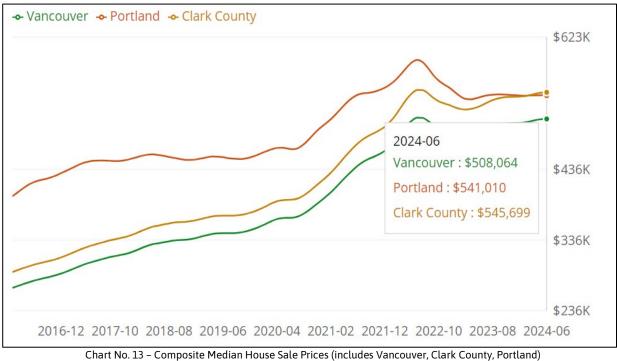

¹¹ Vancouver WA Home Prices & Home Values | Zillow

Regionally, in June, all four regions showed price growth from a year ago. The Northeast had the largest gain of 9.7%, followed by the Midwest with an increase of 5.5%. The West had an increase of 3.5%, while the South region rose 1.7%.

Compared to June a year ago, three of the four regions had declines in sales. The West region was flat, showing no gains. The South had the largest decline, 5.1%, followed by the Midwest, which fell 6.1%. The Northeast region had the smallest decrease, 6.0%.

Compared to May 2024, all four regions fell in sales. The Midwest had the largest decline of 8.0%, followed by the South with a dip of 5.9%. The West region decreased by 2.6%, followed by the Northeast, with the smallest decline at 2.1%.

In June, single-family sales decreased 5.1%, and condominium sales fell 7.5% compared to last month. Single-family home sales were down 4.3%, while condominium sales fell 14% compared to a year ago. The median sales price of single-family homes rose 4.1% to \$432,700 from June 2023, while the median sales price of condominiums increased 2.6% to \$371,700."¹²

¹² <u>NAR realtor/blogs/economists-outlook (nar.realtor)</u> Second Quarter FY 2024 Financial Report

The number of residential units permitted in the city during the second quarter increased to 74 from 14 in the first quarter. Second quarter results are more than 2023 results for the same time period as well.

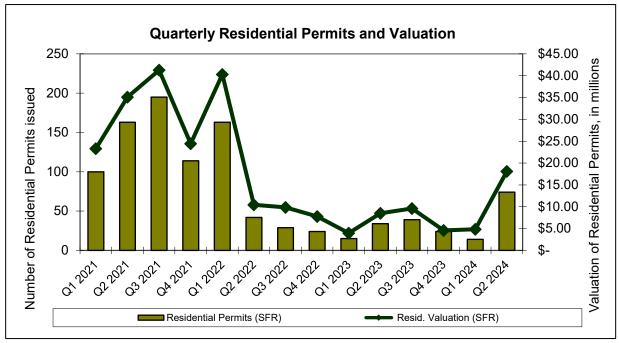

Chart No. 14 - Quarterly Residential Permits and Valuation

The number of multi-family residential units permitted in the city during the second quarter increased to 383 compared to 123 in quarter one of 2024. Second quarter results are more than 2023 results for the same period as well.

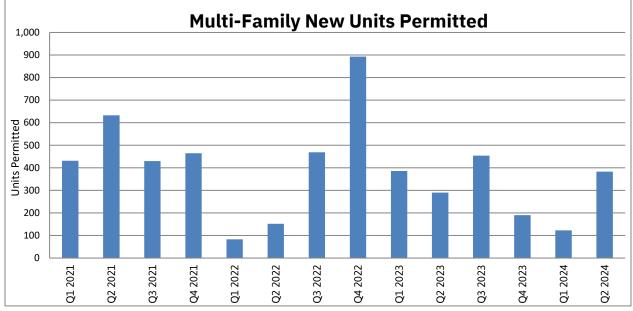

Chart No. 15 - Multi-Family New Units Permitted

City of Vancouver

For the second quarter of 2024, a total of 27 commercial permits were issued, with a valuation of \$146.1 million, compared to the first quarter where 10 permits were issued, with a valuation of \$65.6 million. Commercial activity is generally volatile, as is the valuation of those projects. For example, in 2021, a total of 66 projects were permitted with a valuation of \$272.8 million, but in 2022, 66 commercial projects were also permitted, but the valuation was \$452.6 million. A total of 88 projects were permitted in 2023 with a valuation of \$287.9 million.

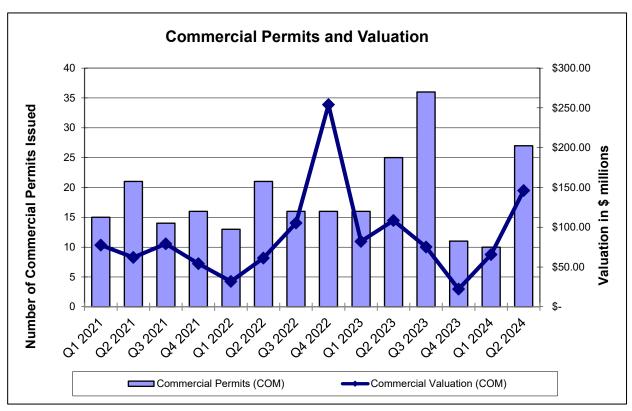

Chart No. 16 – Commercial Permits and Valuation Data provided by the Community and Economic Development Department, City of Vancouver.

III. Financial Results

General Fund

REVENUES

City of Vancouver General Fund revenues through June of 2024 totaled \$136.2 million, or 49% of the forecast for the year, slightly under the forecasted amount. Overall tax revenues were 10.2% higher than those through the second quarter of 2023, driven primarily by property and sales taxes. Property tax collections through the second quarter were 2.0% higher than those in 2023 and sales taxes were 3.2% higher respectively. As expected, business license revenue is coming in higher in 2024 due to the business license fee surcharge that went into effect April 1, 2023.

Sales tax revenues for the second quarter of 2024 came in \$1.0 million higher compared to the same period in 2023, making up the largest portion of the increase in tax revenues. Planning and recreation fees continue to lag in the second quarter (\$281.1 thousand and \$474.3 thousand respectively). The 2024 first quarter property tax revenue totaled \$42.5 million, which is approximately \$850.1 thousand higher than the comparable sales tax revenue from 2023. Utility tax revenue came in higher compared to 2023 as well.

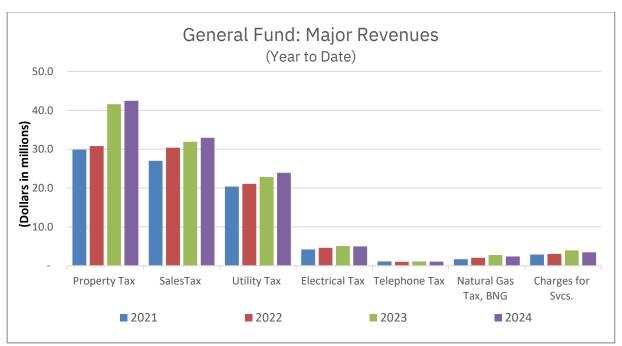

Chart No. 17 General Fund: Major Revenues, June 30, 2024 Note: Utility tax revenue above includes the tax on Solid Waste; Charges for Services exclude the Business License revenue

Property Tax

- Property tax revenues are typically received during the second and fourth quarters of the year. The amount of revenue is based on the assessed valuation and is estimated using County Assessor's data. Deviations from estimates in this revenue source are mostly related to the amount of new construction and delinquency rates.
- The City of Vancouver levy rate is \$2.08969 per \$1,000 of assessed value, which was applied to a total taxable value of approximately \$36.18 billion (2024). The General Fund collects \$2.08969 per \$1,000 in assessed value of the total levy, including the increase for Fire services.
- An additional \$0.27389 per \$1,000 of assessed value levy was approved by voters in November of 2016 for the Affordable Housing Fund. The Affordable Housing levy is generating approximately \$6.0 million per year to be dedicated to increasing the number of affordable housing units in the city. In 2023, the voters extended the levy and increased it to generate \$10 million annually.
- A total of \$42.5 million in general fund property taxes (excluding the Affordable Housing Levy) was collected through June 2024, 58% of the forecasted amount, and \$850.2 thousand more than tax revenue collected in 2023 for the comparable period.

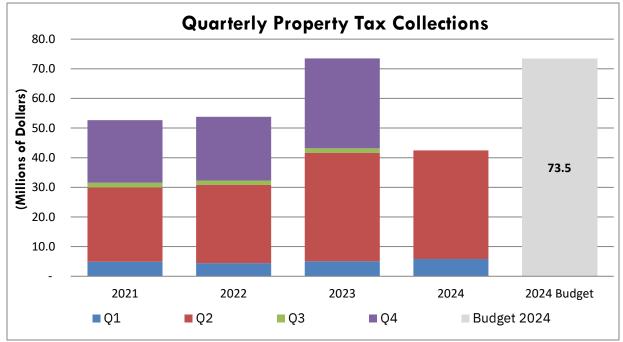

Chart No. 18 Quarterly Property Tax Collections

Note: The dollar amounts above represent the General Fund collections of Property Tax. These have not been adjusted for inflation.

<u>Sales Tax</u>

- The new sales tax rate for Vancouver is 8.7% with the addition of Clark County's Proposition 11 and the increase for the Transportation Benefit District. The sales tax rate in the incorporated area is distributed as follows: 6.5% to the State, 0.5% for the City's "basic" sales tax, 0.3% for the City's "optional" sales tax, 0.2% for the City restricted to funding Public Safety, 0.1% City sales tax for affordable housing, the County's additional optional 0.1% for Law and Justice, 0.1% for c-TRAN, plus the new additions of 0.1% for the Transportation Benefit District and 0.1% for the County's Proposition 11 passed by voters to support public safety.
- Sales tax revenue collected through the second quarter of 2024 came in at 48% of the forecast totaling \$32.9 million (approximately \$1.6 million under the forecasted amount). The additional revenue from Clark County's Proposition 11 was estimated at approximately \$4 million a year and sales tax revenue in 2023 came in \$4.4 million higher than 2022. Retail sales have been strongly influenced by the increased internet sales tax and robust construction activity in the city over the last few years. Beginning in 2021, sales tax revenue became the City's highest tax revenue source, exceeding property taxes; however, the trend discontinued with the passing of Proposition 2.
- A decline in taxable retail sales reflects an instable real estate market, and a reduction in new construction and discretionary spending.

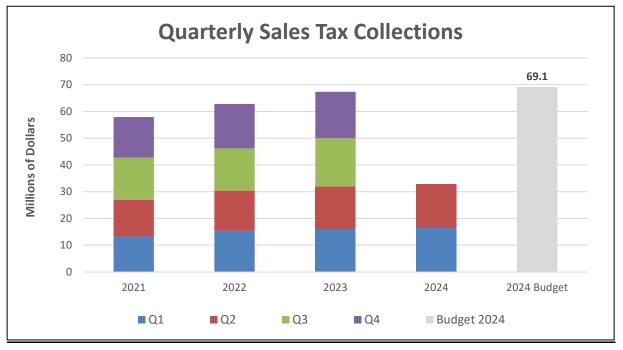

Chart No. 19 – Quarterly Sales Tax Collection

Taxes on Privately Owned Utilities

Vancouver collects a 6.0% utility tax on electrical, natural gas, and telephone services provided within the incorporated area by entities other than the City. The City also charges cable franchise fees.

- The tax on privately and city-owned utilities generated \$9.2 million through June 2024, approximately \$443 thousand more than revenue received in 2023 for the same period. The revenue collections on city-owned utilities came in higher compared to the same period in 2023; however, this was offset by the tax revenues received on privately owned utilities which came in lower respectively.
- Natural gas tax revenues totaled \$2.4 million, approximately \$381 thousand lower than the collections in 2023 through the second quarter.
- Telephone tax revenues totaled \$1.1 million through June 2024, \$72 thousand less than revenues received in 2023 for the same period, and 6% under the forecasted amount. Telephone tax has been on a declining trend over the last several years.
- A total of \$5.0 million was collected in electrical tax revenue through June 2024, approximately \$77 thousand less than collections in 2023 for the same period.

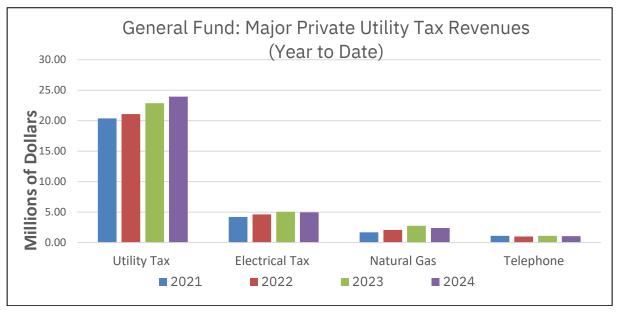

Chart No. 20 – General Fund: Major Private Utility Tax Revenues, June 30, 2024

Water, Sewer, Storm Water and Solid Waste Taxes

Revenue funding City-owned utilities has increased over the years due to a growing customer base as well as the underlying rate increases. The underlying water, sewer, and drainage utility rates have had increases annually in recent years to keep up with inflation and the needs of the outdated infrastructure. The rates were also increased to accommodate the additional utility tax for streets and police. For 2024, the utility rates were increased by a blended 6% annual rate to incorporate inflationary cost increases and an increased capital program.

The revenue collections on city-owned utilities were mixed during the second quarter. In total, \$23.9 million in City-owned utilities taxes was collected through June 2024, however, the solid waste utility came in 6% over the forecasted amount, while the tax on water/sewer/stormwater came in 5% under the forecasted amount; together revenue was approximately \$1.3 million under the expected amount. The makeup of revenues between residential and commercial/industrial has remained stable over the years, with residential being the primary contributor to the revenues.

The chart below shows quarterly collections in City-owned utility tax revenues over the last several years.

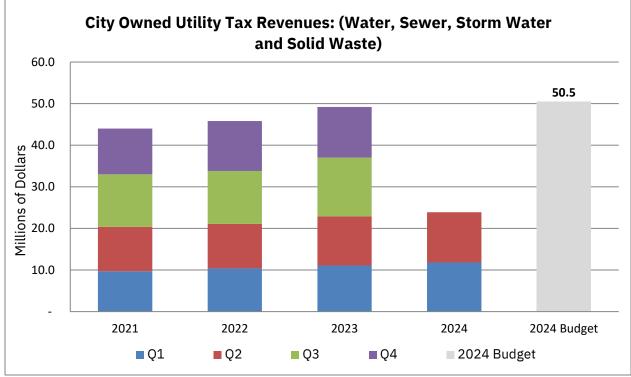

Chart No. 21 – City-Owned Tax Revenues: (Water, Sewer, Storm Water and Solid Waste

Grant & Entitlement Revenues

The City received \$403 thousand in grant reimbursements through June 2024 within the General Fund. The City is forecasted to receive \$3.3 million for the year. Of the \$2.9 million, \$1.8 million is expected for Climate and Community Development grants, \$1.1 million is expected for Public Safety grants and \$425 thousand is anticipated for grants to support homelessness services. Typically, grants reimburse based on actual spending and the revenues catch up to budget closer to the end of the year.

Charges for Goods and Services

The City's largest fee-revenue generating program areas are the Development Review Services and Recreation programs.

Land Use and Other Planning Permits

From 2008 through 2010, the City experienced a significant decrease in both the number of single-family residential permits issued and in their valuation. Data from 2014 through 2021 indicated a trend of significant annual increases in development activity and the resulting land use fees. Planning revenue in 2023 discontinued that trend. Planning revenue through June 2024 was \$640 thousand, which is approximately \$281 thousand less than the revenues collected in 2023 for the same time and 17% under the forecasted amount. Unfortunately, starting in 2023, the reliance on this revenue has gone up significantly compared to prior years as well.

Recreation Program Fees

The City generated \$1.7 million in recreation fee revenues through the second quarter of 2024 compared to \$2.2 million generated in 2023 over the same period. The amount forecasted to be received in 2024 is \$3.4 million. The City's recreation center revenues continue to normalize post pandemic.

EXPENDITURES

General Fund expenditures through June totaled \$111.5 million, or 39% of the year's budget and \$1.4 million under expenses through June of 2023; however, most of this is due to the timing of some major expenses that have been budgeted for, but not yet occurred.

Through June 2024, departments within the General Fund spent \$59.7 million, approximately \$7.1 million less than expenses through June of 2023. As mentioned though, most of this is due to timing of some expenditures. For instance, there are \$2.5 million in encumbrances for homelessness services and \$9.5 million budgeted for Fourth Plain for All; both of these items have not yet hit the expenses.

Police had the biggest increase compared to the same period in 2023, with a difference of \$1.4 million. With extraordinary increases in inflation, salaries and benefits, as well as supplies and services continue to see the impacts of these costs.

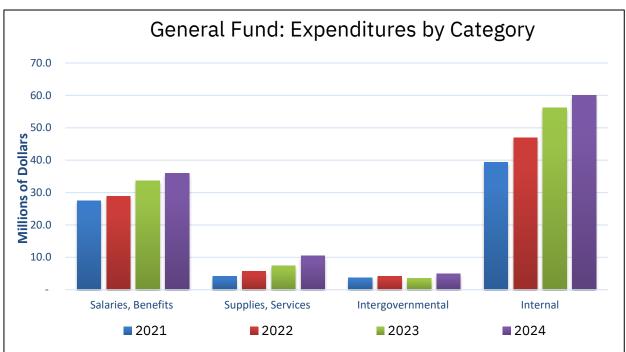

Chart No. 22 – General Fund: Expenditures by Category

General Fund salaries and benefits expenditures totaled \$35.9 million through June 2024, higher than those in 2023 by approximately \$2.2 million, due to positions added, as well as cost of living increases in 2024.

General Fund supplies and services category expenditures were \$10.5 million through June 2024, approximately \$3.1 million above those through June of 2023. Some professional services and supply budgets were carried forward into 2024 due to timing delays in expenditures and supply chain issues.

Intergovernmental expenditures include payments by the City to other jurisdictions based on inter-local agreements. Intergovernmental expenditures reached \$5.0 million through June 2024. This category, beginning with 2019, excludes support to Fire, Street, and other funds.

Internal expenditures include transfers between City funds. For example, General Fund's support of Fire, Street, CVTV, and other funds, as well as cost of internal services, such as Grounds and Facilities Maintenance, Finance, HR, IT, Risk, and Equipment Services. Interfund transfers were previously included with intergovernmental expenditures. Interfund expenses through the second quarter 2024 were \$60.0 million, approximately \$3.8 million more compared to 2023; however, General Fund had a one-time transfer out of \$3.0 million for the purchase of the permit center condominium in City Hall.

<u>Cash Balance</u>

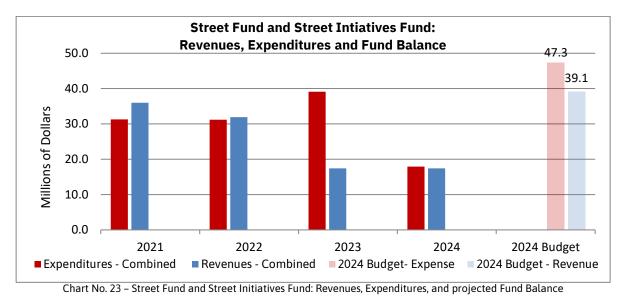

- The General Fund operating cash balance was \$97.9 million at the end of June 2024. The balance was \$4.3 million less than the cash balance at the end of June 2023.
- In addition to the operating cash balance, the General Fund had an emergency reserve totaling \$18.8 million at the end of June 2024, compared to \$16.2 million at the end of June 2023. The Council updated the emergency reserve balance financial policy in 2012, requiring that the emergency reserve balance equals 7.0% of actual external revenues in the preceding fiscal year for the General, Street, and Fire Funds. These funds are intended to be used only for extraordinary events, such as natural disasters.

<u>Fund Balance</u>

- The cash balance represents a snapshot at a particular point in time, while the fund balance factors in revenues and expenditures that are anticipated to occur by the end of the year, as well as the accounting entries that have no bearing on cash.
- The total fund balance in the General Fund at the end of 2023 was at \$96.4 million, below the 2022 ending balance of \$111.0 million, according to the City's preliminary unaudited financial statements. The balance is composed of the Non-spendable (\$0.5 million), Restricted, Committed, Assigned, and Unassigned balances. The Restricted balance of \$0.1 million represents grant revenue received in advance of expenditures in the police department. The Committed balance of \$21.4 million represents reserves in accordance with the City Financial Policies, including the City Emergency reserve of \$16.4 million and the Revenue Stabilization reserve of \$5.0 million. The Assigned balance represents the Columbia Arts Center capital reserve of \$0.9 million.
- The balance pays for the ongoing operations of the General Fund when incoming seasonal revenues are not sufficient to cover expenses. It further eliminates the need for short-term borrowing. The Unassigned balance contains \$45.6 million of Working Capital to ensure sufficient cash flow in the fund and approximately \$5.2 million in compensated balances. The remaining portion of the balance was determined to be undesignated at the end of 2023.

Street and Street Initiatives Funds

- Combined expenditures in the Street and Street Initiatives Funds through June 2024 were \$17.9 million, approximately \$6.7 million higher than expenses through the second quarter in 2023. Construction expenditures are cyclical in nature and generally, timed between April and October of the year.
- Revenues in the combined Street and Street initiatives funds through June totaled \$17.4 million. Beginning in 2018, REET revenue is being received by the Operating Street Initiatives Fund (Fund 103) to better match the consolidated Pavement Management Program, which was moved to the same fund for the ease of operations.
- Motor Vehicle Fuel Tax (MVFT) revenues totaled \$720 thousand through June 2024, about \$90 thousand higher than revenues through quarter two of 2023. This revenue source is a set tax per gallon that does not depend on the price of gasoline. The significant nation-wide increase in gasoline prices over the past two years has resulted in declining gasoline consumption.
- Below is a pictorial representation of the Street fund's expenditures, revenues, and fund balance, and that of the Street Initiatives fund. The Street Initiatives fund primarily represents an increased level of street programming resulting from new revenues specifically increased for that purpose. The spend down of the existing resources in 2022 was planned, as those were accumulated for funding construction costs of major street projects. The only exception to this is the Pavement Management program. The existing program was consolidated into the Street Initiatives fund with accompanying funding for the Real Estate Excise Tax and the General fund to ease the administration of program management. Additional information about the Street Initiatives program and funding is outlined below.

During 2015, a six-month extensive public process took place to determine the desired level
of services in the city street and right-of-way maintenance program. It also decided whether
additional sources would be most appropriate to fund any desired enhancements in the
service level. The recommendations prepared by the Commission were accepted and acted
upon by City Council, resulting in new/increased revenues being directed to Streets to fund
the desired operating and capital outcomes. The ultimate anticipated results of this
initiative are, among other things, an improvement in the condition of City streets from the
current "fair" to "good" over a period of twenty years, reconstruction of a major arterial
every two years, and improved maintenance of right-of-way.

Following is a link to the specific set of recommendations: http://www.cityofvancouver.us/sites/default/files/fileattachments/public_works/page/12554/streets_funding_commission_recommendation_final.pdf

Real Estate Excise Tax (REET)

- A Real Estate Excise Tax (REET) of one-quarter of 1.0% of the selling price is imposed on each sale of real property in the corporate limits of the City. In the past, this tax was deposited into the Street Fund. Beginning in 2018, it has been deposited into the Street Initiative fund and is restricted to financing preservation of the City's Street system. The City also collects an additional one-quarter of 1.0% of the selling price in REET for Parks and Transportation capital.
- REET revenue has been fairly volatile and closely linked to the economy. The revenue has increased rapidly in 2019 through most of 2022, surpassing historical highs in this revenue source. The real estate activity began to slow in late 2022 and that trend continued through 2023 due to higher mortgage rates and their anticipated influence on the real estate sector.
- A total of \$2.2 million in REET revenue was received through June 2024, compared to \$1.9 million received through June of 2023. Collections in 2022 represent the highest amount of revenue ever collected in REET. The graph below demonstrates the fluctuations in REET collections since 2021.

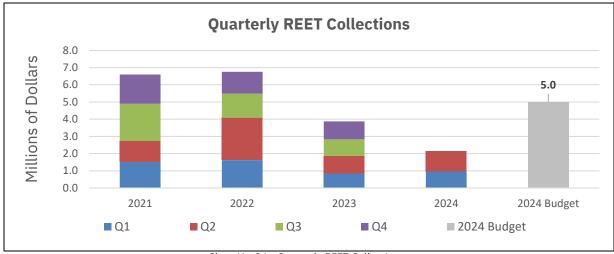

Chart No. 24 - Quarterly REET Collections

Consolidated Fire Fund

The City has an Operating Fire Fund and a Capital Fire Fund. The Capital Fire Fund contains budget and cash for vehicle replacements and purchases. The Operating Fire Fund fully supports the Capital Fire Fund. The graph below represents the Operating Fire Fund's financial information.

Operating Fire Fund revenues through June 2024 totaled \$40.6 million and consist of permit and plan review revenues for services, as well as support from the General Fund and Fire District 5. Total Fire operating expenditures through June were \$40.0 million, \$8.2 million higher than comparable expenses in 2023. Most of the increase is due to inflationary increases within salary and benefits.

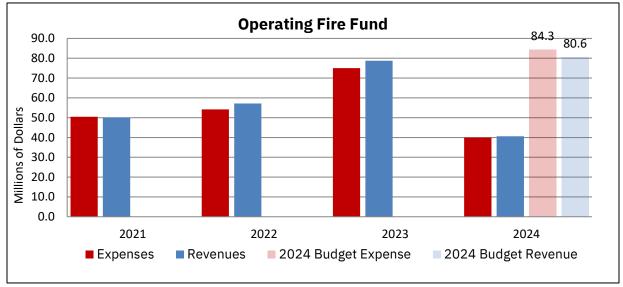

Chart No. 25 - Operating Fire Fund

Building Inspection Fund

- Building review and inspection fee revenues received through June 2024 totaled \$7.6 million, which is \$3.3 million higher than those received through June of 2023; however, the majority is due to a \$3.0 million transfer to record the sale of City Hall space back to the General Fund from the Building Inspection Fund.
- Building Fund expenditures through June 2024 totaled \$16.5 million, which is \$12.9 million more than those in the first half of 2023; however, the Building Fund had a one-time payment of \$12.7 million for co-ownership with the General Fund for the Chkalov building.

The fund balance in the Building Fund targets funding for 18 months of permitting activity after revenue is collected and the replacement cost of the Infor and other software systems to ensure sufficient funding exists at the end of their useful lives. Fees and valuation tables were increased to start building the fund's balance, which has continuously declined over several prior years.

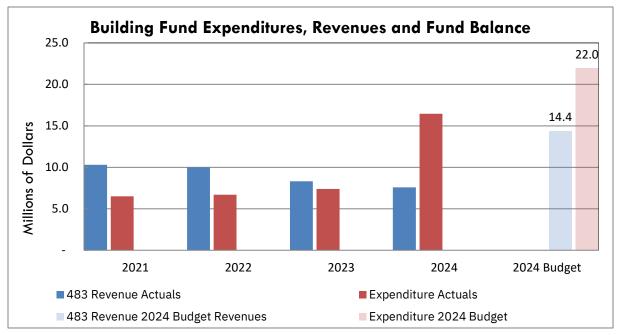

Chart No. 26 – Building Fund Expenditures, Revenues and Fund Balance

Parking Fund

• Parking revenues through June 2024 totaled \$2.9 million, approximately \$194 thousand more than revenues collected in the first half of 2023. Expenditures in the fund totaled \$1.4 million which is \$349 thousand more than those through June of 2023. The parking fund is no longer supported by the General Fund.

Utility Operations

Operating transfers between the Water, Sewer and Storm Water funds are included in the accompanying **Attachment A**, per budget requirements. These transfers are generally eliminated when quarterly financial statements are prepared. Please call (360) 487-8441 to receive a copy of the detailed financial statements for the Utility Funds.

<u>Water</u>

- Water sale revenues totaled \$27.0 million through June of 2024, compared to \$26.0 million received through quarter two of 2023. Water utility rates were increased by 4.5% for 2024 to incorporate inflationary cost increases and an increased capital program. An additional \$2.5 million was collected from other utility revenues, such as private capital contributions, indirect cost plan funding and miscellaneous payments.
- Water fund expenditures through June 2024 totaled \$32.3 million, 39% of the budget. Total expenditures in 2023 through the second quarter were \$20.4 million.

<u>Sewer</u>

- Sewer utility rates were increased by 6% for 2024 to incorporate inflationary cost increases and the increased capital plan. Fee revenues received in the Sewer Fund were \$32.8 million through June 2024, approximately \$2.2 million higher than revenues through quarter two of 2023 and 53% of the forecasted amount for 2024.
- Sewer expenditures through June 2024 totaled \$23.2 million (35% of budget), and approximately \$6.9 million above 2023 expenses through June of 2023.

Storm Water

- A total of \$12.2 million in Storm Water revenue was received through June 2024, approximately 4% below the forecasted amount, but \$299 thousand higher than second quarter 2023 revenues. Surface water rates were increased by 8% for 2024 to fund Council initiatives on Climate Action through increased investments in proactive street tree maintenance and planting, and in advance of Total Maximum Daily Load (TMDL) and National Pollutant Discharge Elimination System (NPDES) permit requirements expected later this summer.
- Overall, the expenditures in the Storm Water fund through June 2024 were \$13.8 million (or 50% of 2024 budget); the expenses through this quarter were approximately \$562 thousand higher than those through June of 2023.

Internal Service Funds

Equipment Services Operating and Capital Funds

• A total of \$4.7 million was spent by Equipment Services on operating activities through June 2024 (49% of the budget for the year). The ER&R Capital fund spent \$3.9 million, approximately 26% of the annual vehicle replacement budget. The vehicle purchase scheduling has been impacted by the supply chain issues resulting from the pandemic and the resulting vehicle availability.

Internal Administrative Services Fund

• A total of \$14.4 million was spent by departments within the Internal Administrative Services Fund through June 2024, which is 43% of the total budget for the year. Departments within this fund include Human Resources, Finance, Information Technology, Civil Legal, Communications, Equity & Inclusion, Central Records, and Mailroom Services.

<u>Risk Fund</u>

• Within the Risk Fund, approximately \$3.7 million was expended through June 2024, 27% of the total annual budget, and \$272 thousand more when compared to the first half of 2023.

Benefits and Self-Insured Health Insurance Funds

• A total of \$14.1 million was spent on benefits through June of 2024, including health insurance. The total through June is \$1.4 million more than 2023 expenditures for the same period. The expenses within the Benefits and Self-Insured Health Insurance Funds are at approximately 41% and 45% of their annual budgets respectively.

IV. Outstanding Debt

At the end of the second quarter of 2024, the City had around \$35 million of general obligation (G.O.) debt outstanding. General obligation debt is backed by the full faith and credit of the City and by general taxes. The weighted-average interest rate for the City's general obligation debt is 1.94%.

A complete list of the City's outstanding debt is included in **Attachment C**.

V. Investments

Market Conditions

- Recent indicators suggest that economic activity has continued to expand at a solid pace. Job gains have remained strong, and the unemployment rate has remained low. Inflation has eased over the past year but remains elevated. In recent months, there has been modest further progress toward the Committee's 2 percent inflation objective.
- The Committee seeks to achieve maximum employment and inflation at the rate of 2% over the longer run. The Committee judges that the risks to achieving its employment and inflation goals are moving into better balance. The economic outlook is uncertain, and the Committee remains highly attentive to inflation risks.
- In support of its goals, the Committee decided to maintain the target range for the federal funds rate at 5-1/4 to 5-1/2 percent. In considering any adjustments to the target range for the federal funds rate, the Committee will carefully assess incoming data, the evolving outlook, and the balance of risks. The Committee does not expect it will be appropriate to reduce the target range until it has gained greater confidence that inflation is moving sustainably toward 2 percent. In addition, the Committee will continue reducing its holdings of Treasury securities and agency debt and agency mortgage-backed securities. The Committee is strongly committed to returning inflation to its 2 percent objective.
- In assessing the appropriate stance of monetary policy, the Committee will continue to monitor the implications of incoming information for the economic outlook. The Committee would be prepared to adjust the stance of monetary policy as appropriate if risks emerge that could impede the attainment of the Committee's goals. The Committee's assessments will account for a wide range of information, including readings on labor market conditions, inflation pressures and inflation expectations, and financial and international developments.

Investment Performance

The average amount invested in June 2024 was \$706 million compared to \$658 million on June 2023. The portfolio had a weighted average yield of 3.63% year-to-date, which is a 37-basis point difference than the projected annual yield of 4.00% for 2024. The projected yield is based upon the blended yield between existing rates and expected market rates when new investments are purchased during the year. The year-to-date yield was 177 bps lower than that of the State Investment Pool, which had an average yield of 5.40%. The State Pool had a weighted average maturity of 17 days. The City's investment portfolio weighted average maturity was approximately fifteen months. Longer-term portfolio yields will underperform shorter-term portfolio yields in a rising interest rate environment. Interest revenue distributed through the end of June 2024 to all funds is approximately \$12.4 million compared to \$7.1 million during the same period of 2023. This is a gain of over \$5.3 million.

The City's investment portfolio profile is detailed in **Attachment D**.

VI. Interfund Loans

In 2003, Council passed an ordinance giving the City Treasurer the authority to make interfund loans to meet the short-term liquidity and cash flow needs of the City's various funds. The ordinance requires the City Treasurer to provide a quarterly report to City Council showing the amount of all interfund loans outstanding and the repayment plan for those loans. During 2024 there was one Interfund loan with an outstanding balance at the end of June 2024.

Parking Demand Manage Add 1 FTE to Parking	ment	Complete/ Next Phase	Parking Demar	nd Manager hired.							

Budget Package Description	Status	Accomplishments Summary
Business License surcharge Implement Business License surcharge as per Council policy.	Complete/ Next Phase	Based on year-to-date receipts through June 30, 2024, collected \$3.48 million in business license fee surcharges. Funds have been allocated per Vancouver Municipal Code 5.04.095. 18% to public safety and well- being, 18% to parks major maintenance and capital, 40% to new capacity building street improvements, and 24% to public infrastructure improvements to facilitate economic development in city limits.
River West (Library Square) Project	Complete/ Next Phase	
Main Street Promise Replace sewer mains, fund street improvements and provide for professional services to support planning and analysis of design work.	In Progress	Plans and Specifications completed, and project advertised for construction bids. Following review of the bids, determined that the Bidder Responsibility Criteria section needed clarification of the City's minimum requirements for a contractor. City Council approved rejection of all bids on July 15, 2024, and staff are now revising the bid documents. The project will be re-advertised for construction bids.
Add Staff to Support Economic Prosperity & Housing Three FTE for targeted urban redevelopment areas (2 positions), small business assistance and implementation efforts (1 position)	In Progress	Two of the three positions (Real Estate Project Manager and Small Business & Entrepreneurship Program Manager) have been filled. The third position has not been filled and is proposed as a General Fund budget reduction for the 2024-25 Biennial Budget.

Policy Priority: Improve Community Safety and Wellbeing			
Police Camera Program Implementation	Complete/ Next Phase	The VPD camera program was fully implemented at the end of 2023.	
Police Training & Headquarters Facility	See Capital Report		
Police Recruiting 3 new police officer positions funded by Clark County Sales Tax Proposition 11	Complete/ Next Phase	As of the end of Q2, 229 out of 241 (95%) authorized sworn positions are filled.	
Computer Support Specialist 1 FTE to support additional staff added by Proposition 2 Levy	Complete	Position filled during Q1 2024. Information Technology department now has a staff person dedicated to support the Fire Department.	
Proposition 2: Support for Vancouver Fire Department 43 new FTEs for fire suppression	In Progress	Spring Recruit Academy scheduled to be completed end of July. Currently 7 open positions. Anticipate 95% fully staffed upon successful graduation of recruits.	
Proposition 2: Support for Vancouver Fire Department Funded new fire vehicles	In Progress	Due to national supply chain problems the delivery of Truck 10 was extremely delayed. To ensure level of service maintained, purchased an additional used ladder truck from Gresham Fire.	
Proposition 2: Support for Vancouver Fire Department Add three FTE to Fire Administrative Support	Complete	Logistical Materials Coordinator and Support Specialist 2 hired in first half of 2023. Management Analyst hired Q1 2024.	
Fire Station 8 Design/Remodel Remodel project to accommodate addition of Truck Company.	In Progress		
Fire Station 5 Logistics Warehouse	See Capital Report		
Community Development Building Safety Add 2 FTE building inspectors to meet increasing needs of building inspection work.	In Progress	One Electrical Inspector position and one Building Inspector position currently vacant. No recruitment planned in near-term due to budget forecast.	
Rapidly Increase Shelter Capacity Safe Stay Community 3	Complete/ Next Phase	Safe Stay site 3 is fully operational.	
Rapidly Increase Shelter Capacity Safe Stay Community 4 (AH Local Sales tax fund)	Complete/ Next Phase	Safe Stay site 4 is fully operational.	

Budget Package Description	Status	Accomplishments Summary
Rapidly Increase Shelter Capacity Safe Stay Community 5 (AH Local Sales tax fund)	Project Not Initiated	
Operations/Support: Safe Stay and Safe Park sites Contracted services to operate Safe Stay sites.	Significant Progress	Safe Park and Safe Stay sites 1, 2, 3, and 4 are fully operational with contracted providers at each site.
Add one Homeless Outreach Specialist (FTE) to City Manager's Office Additional HART Outreach Worker to assist the growing number of people experiencing unsheltered homelessness.	Complete	New Outreach Specialist hired Q1 2024.
Safe Park Sites Add one Safe Park site for a total of two within city limits.	Project Not Initiated	Research continues for viable locations for a second Safe Park Site
Vancouver Moves (Transportation System Plan) A Transportation System Plan Update is required for eligibility to receive multi-million-dollar Federal Transportation Grants. Provides policy for the City's transportation system over 20 years, including for vehicles, freight, transit, bicycle and pedestrian travel.	In Progress	The Transportation System Plan was adopted in Q1 by City Council. Work on near-term priority programs continue. The Safe Routes to Schools program has received some initial support through a Department of Commerce Climate grant for a low-carbon acceleration strategy. Work to update the City's Concurrency Program and associated requirements and standards underway.
Complete Streets Provide funding for Evaluation of McLoughlin and Columbia Streets.	In Progress	The McLoughlin Street evaluation is complete, and the Columbia Street evaluation report is being redrafted to be more accessible and provide recommendations on updating the evaluation framework. The new report is expected to be shared in Q3.
Complete Streets Program planning for McGillivray, 33 rd /29 th Streets, St Johns/St James up to 30% design.	In Progress	The McGillivray Project recommendations passed the Transportation and Mobility Commission in Q1 and Public Works civil design is 10% complete. The 33 rd / 29 th Street and St. Johns/ St. James projects are currently at mid-point in the planning phase. Existing conditions report complete. Currently in first round of engagement and have each had two workshops with the Transportation and Mobility Commission. The 33 rd and 29 th project is anticipated to complete the planning phase in Q4 of this year, while the St. Johns/ St. James project will complete the planning phase in Q1 of 2025.
PW Operations Center Campus Development		See Capital Report
New Playground Equipment		See Capital Report
Support for Community Events Add a full-time Special Events Coordinator position to support growing demand for special events.	Complete and/or Next Phase	Recruitment for Special Events Coordinator successful and filled as of end of Q2 2023.
Support for Development of Parks Add a new Park Developer to support parks and trails, particularly the establishment of an ongoing Trails program.	In Progress	Of two Park Developer positions, one has been filled as of fall 2023 and the other position has been scoped.
Parks on-going funds to develop city-wide trail program and improve connectivity		See Capital Report
Policy Priority: Improve Equity and Inclusion		
Conduct a Disparity Study Hire a consultant to conduct comparable studies of discrimination and disparities in contracting and procurement.	In Progress	The disparity study is ongoing. The consultant is beginning to draft their recommendations for the report based on the qualitative and quantitative data collected through the surveys.
Fourth Plain For All Community Supported Investment Strategy for the Fourth Plain Corridor and adjacent neighborhoods.	In Progress	Working with partners to implement Investment Strategy approved by Council in 2023. Investment Strategy Committee had its first meeting, focused on Parks improvements. Created a prioritized list of Parks improvements.

Budget Package Description	Status	Accomplishments Summary
Comprehensive Plan Professional services support for the update of the City's 20-Year Comprehensive Plan (Our Vancouver) providing long-term policy direction for managing the built and natural environment in Vancouver.	In Progress	Conducted a community wide mapping exercise that included four large community workshops, smaller workshops with the project community working groups, Community Partners, and an online virtual version of the exercise. Feedback collected provided foundation for initial land use possibility concept maps. Work initiated on the code update process.
Expand the Office of Diversity, Equity and Inclusion Add personnel to support department-centric inclusionary and equity employee experience, recruiting, and organizational development.	Complete and/or Next Phase	Administered employee development presentations and resource groups. Topics included: Environmental Justice, Safe Space, Employee Mental Health, Women in Public Service, LGBTQ+, African American Women in Public Service. Collaborating with Human Resources to expand recruitment. Issued Request for Proposals for Translation & Interpretation services. Convened Chuukese Community Conversations (including Youth, Housing). Equity presentation by OEI team member at Washington State Association of Municipal Attorneys Conference.
Add Staff Capacity for Outreach Add 1 FTE to Procurement for outreach to MWDBE businesses	Slow Progress	This position is currently on hold pending the results of the disparity study and budget discussions.
Add Staff to Support Economic Prosperity and Housing Add an Associate Housing Coordinator to support increased programming and funds available through Affordable Housing Fund levy.	Complete and/or Next Phase	Coordinator hired 3/26/2024, working to update program policy to comply with new HUD regulations, updating and monitoring housing loan portfolio.
