

## 2025 Community Stages Detail and Audio Presets

**Music Stage:** 16' x 20' raised stage with covered roof

**Dance Stage:** 25' x 40' raised stage with covered roof and Marley floor.

**Backstage Support:** Festival staff and volunteers will be ready to welcome you at your load-in site and assist you backstage. Our friendly and professional stage managers will greet you onsite and ensure everything runs smoothly. You'll have access to a dressing room, restrooms, and a designated load-in/load-out area equipped with tables and chairs where you can relax until it's time for your performance. Volunteers will check in regularly with performers and staff throughout the festival and provide water to keep everyone refreshed. The backstage area will be a secure, staff-and-performers-only zone to ensure your comfort and safety.

**Audio Professionals:** The experts at Versa Events will again provide professional, full-service audio support to this year's festival. Seasoned sound techs will be at each stage all day to assist, adjust, and ensure seamless production of your performance.

**Music Stage Presets:** This package includes a complete sound system for a typical five-to-six-piece band. The system's primary coverage is around 50' or so from the stage, with additional sound carried farther. The system includes the following components, with others available as required.

### Sound Equipment:

- (2) 15" Two-way active main speakers
- (2) 18" Active subwoofers
- (4) 12" Active monitor speakers
- (1) 16-input digital mixer with snake

### Microphones and Accessories:

- (4) Vocal mics
- (2) Instrument mics
- (4) Passive direct boxes
- (1) Basic drum mic kit (kick, snare, overheads)
- Mic stands and all necessary cabling

### Drum Kit:

- DW Collectors Series drum kit:
  - 22" kick, 14x6 wood snare, 10" & 12" toms, 14" & 16" floor toms with legs
- DW 9000 hardware, including kick pedal, snare stand, throne, hi-hat stand, cymbal stands, and drum rug.
- Zildjian A Custom cymbal pack (14" hats, 16" crash, 18" crash, 20" ride).

### Additional Equipment:

- ProLine PL200 Single Tier Keyboard Stand

### Playback and Additional Features:

- Laptop for background music and prerecorded audio playback with the ability to play MP3/Wave files.
- Power distribution for the entire system.

**Dance Stage Presets:** Audio services are provided by Versa Events and include a comprehensive sound system package designed for mid-sized dance performances. The setup features a ground-stacked compact line array speaker system paired with subwoofers, ensuring excellent sound coverage for audiences up to 100 feet from the stage. A 32-input digital mixer handles both Front of House and on-stage monitor mixing, with wireless iPad control for added flexibility. The package also includes stage monitors, a complete microphone setup with stands, and all necessary cabling for the performing group. Below is a list of included components, with additional equipment available as required.

Features include:

**Sound Equipment:**

- (4) JBL VRX932LA 12" compact line array speakers
- (4) JBL SRX718S 18" subwoofers
- (2) JBL SS 4BK threaded poles
- (1) 16-channel digital mixer with snake package (wireless iPad control).
- (4) JBL SRX712M stage monitors with amp rack.

**Microphones and Accessories:**

- (2) Shure QLXD24/B58 wireless handheld mics for MC or lead performers.
- Complete microphone package with stands and cables.

**Playback and Additional Features:**

- Laptop for background music and prerecorded audio playback with the ability to play MP3/Wave files.
- Power distribution for the entire system.
